avonplast®

— SINCE 1965 —

AvonPlast is Karnataka's pioneer manufacturer of uPVC Pipes and Fittings since 1965. In over five decades in business, the Company has won the hearts of lakhs of customers with top quality products that have stood the test of time. **AvonPlast** is an ISO 9001- 2015 certified Company and manufactures a complete range - Agriculture Pipes & Fittings, SWR Pipes & Fittings, uPVC & CPVC Pipes & Fittings, Column Pipes, Casing Pipes, and Bajaj Electrical Conduits. Underground Drainage pipes, HDPE pipes, Garden - Suction Hose, and Blow and Roto Mould Water Storage Tanks.

All **Avonplast** pipes and fittings are ISI Certified.

Avonplast has the infrastructure capacity to manufacture over 70000 MT of PVC Pipes and Fittings annually. Currently contracted with 5000 dealers and above.

Avonplast has a nationwide market and 1000 skilled employees.

When you buy an **Avonplast** Product, you buy genuine value for money.... for years

AGRICULTURE uPVC

PIPES AND FITTINGS

Avonplast offers wide range of products for water transportation from one place to another place in agriculture segment. Superior quality assurance approach across all stages of manufacturing gives the product a high degree of reliability, making Avonplast products best choice for farmers, government institutions, domestic and commercial establishments and quality conscious people across the country. Avonplast products are designed specially to withstand the adverse weather conditions and to supply water for irrigation.

Avonplast offers an extensive range of agriculture uPVC pipes and fittings. These pipes and fittings are designed specifically for varied pressure and gravity flow applications in agriculture, irrigation, swimming pool applications, and domestic water supply including potable water supply.

Features & Benefits:

- Lead free
- Light weight
- Cost effective and easy to handle
- Maintenance free
- UV resistant
- Strong and durable
- Good chemical resistance
- Solvent cement jointing

Sizes: 20 mm to 400 mm

AVONPLAST CPVC

THERMO HYDRO LIFE PLUMBING SYSTEM

The service that provides safe potable water at adequate pressures and quantities at desired locations within living spaces and carrying away waste matter in a hygienic manner. A typical plumbing system shall include identification of appropriate source(s) of water, storage, treatment, conveyance and distribution of the same to the required locations. Avonplast provides the best pipes & fittings for safest, leak-proof and hygiene plumbing system with state of the art manufacturing facility.

Avonplast CPVC Thermo Hydro Life Plumbing System is manufactured using Japanese raw material. CPVC is the first choice of material for potable water supply and is in use across the world for more than 50 years. Ideal for use in Hot and Cold water application in individual homes, residential apartments, villas, commercial buildings, office complexes, hotels and hospitals.

Features & Benefits:

- Suitable for use up to 95°C
- Tough and reliable
- Low thermal conductivity
- UV resistant
- Quick and easy installation
- Smooth internal surface

Sizes: 3/4" to 2"

AVONPLAST UPVC SWR SWR DRAINAGE SYSTEM

Avonplast uPVC SWR drainage system ideal for use in soil, waste, rainwater and vent application in individual homes, residential apartments, villas, commercial buildings, office complexes, hotels and hospitals. Avonplast offers this system with highest dimensional accuracy, superior quality, range and surface finish.

Features & Benefits:

- High chemical resistance
- Tough and reliable
- 100% leak-proof joints
- UV resistant
- Available in Ring type and solvent cement jointing
- Quick and easy installation
- Smooth internal surface
- Light weight
- Cost effective

Sizes: 40 mm to 160 mm

IS: 13592

CML: 6557079

AVONPLAST UPVC

UNDERGROUND DRAINAGE SYSTEM

Avonplast uPVC underground drainage system is intended to carry soil, waste and rainwater from building to roadside sewers or drains and from there to waste treatment plant or disposal point.

Features & Benefits:

- **Chemical and corrosion resistance**
- **Environmental friendly**
- **100% leak-proof joints**
- **Maximum flow rate**
- **Easy to install**
- **Long life**
- **Light weight**
- **Cost effective**

Standard Specification as per IS 15328:2003
Product Range: 110, 140, 160, 200 & 250 mm

Sizes: 110mm to 250mm

IS: 15328

AVONPLAST UPVC HYDRO LIFE LEAD FREE PLUMBING SYSTEM

Avonplast uPVC Hydro Life Lead Free Plumbing System is ideal for use in cold and potable water application in individual homes, residential apartments, villas, commercial buildings, office complexes, hotels and hospitals.

Features & Benefits:

- Lead free
- Tough and reliable
- Cost effective
- UV resistant
- Good chemical resistance and corrosion resistance
- Quick and easy installation
- Smooth internal surface

Sizes: 1/2" to 4"

AVONPLAST HDPE PIPES

Avonplast offers high quality superior grade High Density Polyethylene (HDPE) pipes ideal for the conveyance of water. These pipes are manufactured as per IS 4984 & available in raw material grades PE-63, PE-80 and PE-100 in various pressure rating. Avonplast HDPE pipes are suitable for various applications like underground, above ground, under water and floating pipe applications.

Features & Benefits:

- **Manufactured from 100% raw material**
- **Light weight**
- **Highly flexible for faster and easier installation**
- **Chemical resistance**
- **Better flexibility and crash resistance**
- **Fusion welded joints provides leak-free pipe system**
- **Superior hydrostatic strength and durability for long life**
- **Lowest bacterial growth**
- **Superior flow characteristics**

Sizes: 20 mm to 315 mm

IS: 4984

PVC GARDEN HOSE

PIPE & PVC SUCTION HOSE PIPE

Avonplast provides high quality PVC garden & suction hose pipes in multiple colours and variants. Ideal for use in garden and household watering applications, agriculture equipment for suction and delivery of fresh water and sea water applications, and for fertilization and irrigation purposes.

Features & Benefits:

- **Chemical resistant**
- **Light weight**
- **Easy to handle**
- **High flexibility**
- **UV resistant**
- **Available in multi type and multi colour**
- **Smooth surface finish**

AVONPLAST MULTI LAYER BLOW & ROTO MOULDED WATER STORAGE TANKS

Avonplast multi-layer water storage tanks are manufactured using virgin food grade raw material. These tanks are manufactured using **Blow & Roto Mould Machines**. This ensures that our tanks have uniform wall thickness, strong and durable. **Avonplast** offers a wide range of tanks in multi colour options for domestic as well as commercial application for water storage.

Features & Benefits:

- Manufactured from virgin food grade raw material
- Available with double layer threaded lid
- Light weight
- Easy to handle
- Impact and crack resistant
- UV resistant
- Strong and durable
- Smooth surface finish

AVONPLAST uPVC

COLUMN PIPES FOR SUBMERSIBLE PUMP

Avonplast offers wide range of uPVC column pipes for submersible pump to retrieve water from bore well to irrigation and domestic application. **Avonplast** column pipes made of uPVC and are non-corrosive, High-Tensile and High-impact pipes having a successful installation of over 15 years across the country.

Features & Benefits:

- Square threads gives better joint strength
- Light weight
- Cost effective and easy to handle
- Maintenance free
- 100% leak proof joints
- Strong and durable
- Long life
- Smooth internal surface

Lead Free Column Pipe

AVONPLAST uPVC CASING PIPES

Avonplast plain casing pipes made of uPVC and are specially designed to protect water lines from soil conditions. Avonplast casing pipes are better than conventional metal pipes as they are light weight, corrosion free and long lasting. These pipes do not alter the water quality and are recyclable.

Features & Benefits:

- Light weight
- Cost effective and easy to handle
- Maintenance free
- High impact strength
- Strong and durable
- Long life
- Available in different class

BAJAJPLAST ELECTRICAL CONDUIT PIPES

Avonplast offers high quality superior grade electrical conduit pipes in the brand name of Bajajplast. These pipes has excellent thermal and electrical resistance in terms of conductivity. Bajajplast PVC conduit pipes are produced to be used as conduits for electrical cables to protect against human or environmental exposure, overheating, electrical short-circuiting and other hazardous situations that can arise whenever handling electricity is involved.

Features & Benefits:

- **Manufactured from high quality material**
- **Light weight**
- **Non conductor of electricity**
- **Chemical resistant**
- **Corrosion resistant**
- **Flame retardant**
- **Durable and long life**
- **Maintenance free**
- **Smooth surface finish ensures friction free & easy wiring**
